

WEATHER NOW CERTAIN SAYS HYATT

Who Gives High Barometric
Pressure as Reason for
Prediction.

The storm which has been causing bad weather for Salt Lake for the past two days passed off to the east Tuesday and according to Hyatt, the weather man, we will experience no more cloudy weather for at least a week. The low pressure area is now centered over Kansas City and 34 of an inch of rain was reported there Tuesday. At Chicago it did not receive the heaviest precipitation of the day, 3 of an inch of rain being reported at St. Louis. Sixty-two inches of snow fell in the Tuesday, while 1.8 of an inch was reported in Helena. Snow was also reported in Chicago.

The storm was over the middle slope, extending over a large area. Precipitation was reported over portions of California, Idaho, Nevada, Montana, Utah, Wyoming, British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, and the Atlantic States. Over the Pacific and Atlantic States the barometric pressure was high. The temperature was reported over Manitoba. The Pacific high barometric pressure caused fair weather in this locality Tuesday.

Tuesday's record at the local office of the weather bureau for the twenty-four hours ending at 6 p. m. today was as follows: Temperature at 6 p. m., 21 degrees; maximum temperature, 29 degrees; minimum temperature, 28 degrees; mean temperature, 24 degrees, which is 2 degrees below normal. Total excess of temperature since the first of the month, 3 degrees. Accumulated excess of temperature since January 1, 159 degrees. Total precipitation, 34 inch. Total precipitation since first of month, 2.1 inches, which is 21 inch below normal. Accumulated deficiency since January 1, 12.9 inch.

Relative humidity at 6 p. m., 100 per cent.

MURPHY IS OWNER OF DISPUTED GROUND

Judge Ritchie has rendered a judgment in favor of the defendant in the case of E. D. Swan vs. Patrick Murphy, in the third district court. Four acres of ground on the west side of State street, between the Swan building and the store buildings owned by Mr. Murphy, were in dispute. The finding is that Murphy owns the site. In the trial of the case, the words were searched from the time that Daniel H. Wells, as mayor of Salt Lake, transferred the Murphy property to Claudius Spencer, the father of D. S. Spencer.

A Woman's Health

is a heritage too sacred to be experimented with. For her peculiar and delicate ailments only medicines of known composition and which contain no alcohol, narcotics, or other harmful or habit-forming drugs should be employed. The one medicine which fulfills all these requirements is Dr. Pierce's Favorite Prescription—a remedy with a record of over forty years of cures to recommend it; a remedy, the makers of which print its formula on every bottle-wrapper and attest its complete truth and correctness under oath; a remedy devised and adapted to woman's delicate constitution by an educated physician—an experienced specialist in woman's diseases; a remedy, every ingredient of which has received the written endorsement of the most eminent medical writers of all the several schools of practice for the cure of woman's peculiar diseases; a remedy which has more bona fide cures to its credit than any other sold by druggists for woman's special requirements. It is not given away in the form of "trial bottles" to be experimented with, but is sold at a fair price by all dealers in medicines.

Delicate, weak, nervous women should especially shun the use of alcoholic medicines which, from their stimulating and exhilarating effects may seem, for a time, to do good, but which from the inevitable effects of the alcohol in shrinking up the red corpuscles of the blood are sure to do great and lasting harm in the long run. Besides they breed a craving for stimulants which is most deplorable.

Only invigorating and nerve strengthening effects can follow the use of this famous medicine for women. It can not possibly do harm in any state or condition of the system. It has been carefully adapted to woman's needs by an experienced physician—a specialist in her diseases. It makes weak women strong and sick women well.

If a woman has bearing down, or dragging pains, low down in the abdomen, or pelvic, backache, frequent headaches, dizzy or fainting spells, or nervous and easily startled, has gnawing feeling in stomach, sees imaginary floating specks, or spots before her eyes, has melancholia, or "blues," or a weakening disagreeable drain from pelvic organs, she can make no mistake by resorting to the use of Dr. Pierce's Favorite Prescription. It will invigorate and tone up the whole system and especially the pelvic organs.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic, "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked, "worn-out," run-down, debilitated teachers, milliners, dress-makers, seamstresses, "shop-girls," house-keepers, nursing mothers, and

GODMAN WANTS NAMES OF DELINQUENTS PRINTED

License Assessor Godman will suggest to the license committee of the City Council that the names of persons who are behind in the payment of their license taxes, be published once a month, or once every three months, as the committee may decide.

There is now a list of nearly 500 delinquents in the office of the license assessor, and it is believed that the publication of the names would have a salutary effect.

From the present time to the close of the year it is believed that receipts from license taxes will show a handsome increase over previous years. In view of the legislative provision that all liquor licenses must expire at the end of the year, it was estimated that the city lost at least \$20,000 during the three months just past, but now the greater number of the licenses will run regularly by quarters. The loss in question was occasioned by the fact that where a license expired between January 1 and March 31, the license would not be granted for a quarter from the date of expiration, but only to March 31.

Chamberlain's Cough Remedy Aids Nature.

Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on this plan. It attacks the cough, relieves the lungs, aids expectoration, opens the secretions, and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. For sale by all druggists.

CITY PAYS LARGE SUM FOR IMPROVEMENTS

Salt Lake's Portion of Street,
Sidewalk and Sewer Building Described.

"There are a great many people," said a man well versed in municipal affairs, Tuesday, "who appear to be ignorant of the fact that the city has to stand a goodly share of the expense of sidewalk construction and street paving."

"Where sidewalks are constructed, the city pays for one-half the grading in front of the abutting property, and bears all the expense of the intersections. In 1906 this work cost the city \$24,728.64, and in 1907, \$20,350.81, a total of \$45,079.45.

"In the work of street paving the city pays for the curbing, guttering and intersections. In 1906 this work cost the city \$45,111.82, and in 1907, \$116,948.26, a total of \$162,060.08. Handsome little sum, isn't it?"

"There is still another item that may be lost sight of, and that is what sewer laterals cost the city during 1906 and a portion of 1907. At that time the property owners were only assessed \$1.20 a foot, and the excess cost the city \$17,152.18."

During the present year the city's portion of sidewalk construction will not be great, but there are other expenses of some magnitude. The city's portion of the cost of paving East First Street will be \$64,898.77, and it will cost \$70,000 to complete the intersecting sewer and connect it with the gravity sewer. Miscellaneous payments are estimated at \$10,000 more, and the city's portion of the cost of macadamizing First Avenue will be \$80,000.

INSPECTOR SORENSON CONDEMNNS THE SPRAYING

Horticultural Inspector John P. Sorenson has filed his report for the month of March with the board of county commissioners. Mr. Sorenson says he inspected 15,000 trees during the month, 10,000 of the number having been imported and the remainder grown in the county. He also fumigated 64,000 trees and approximately 10,000 bushes and shrubs. During the month 132 certificates for nursery stock inspected and fumigated were issued, the stock being sent out of the county.

Sorenson further reports that he has condemned some of the spraying done by men for hire, as not being up to standard. Mr. Sorenson desires that all persons who are preparing to plant trees report to him, in order that he may inspect their trees and save them the expense of planting trees that are diseased.

Regarding the work of his deputies, Mr. Sorenson says that his deputy inspector had fumigated 19,849 trees at the nurseries south of Murray and condemned and burned 100 of the number.

MARTIN'S PARK ORDINANCE IS HELD UP BY THE MAYOR

Mayor Bransford has held up Mr. Martin's park ordinance, which was passed at the city council Monday evening. One of the principal objections which the mayor has to the measure is that it prohibits driving or riding at a rate in excess of six miles an hour. It is understood that Mr. Black and Mr. Holley also object to this provision, as each owns a horse with a record of seven miles an hour.

As Mayor Bransford views the provision, many persons may attempt to drive around the park at the six mile rate and be late to dinner. The ordinance also prohibits dogs in the parks unless the animals are carried by the owner, or led by a cord not more than six feet in length.

HIGH SCHOOL NOTES

Active preparations for the annual spring encampment are being made by the cadet battalion of the Salt Lake High school. A meeting to discuss plans was held in the assembly room Monday afternoon.

The question of a place at which the encampment will be held came up for consideration, but no place was definitely decided upon. The suggestion to hold the encampment in the Yellowstone National park was abandoned. Another location suggested was the shore of Utah lake, near American Fork. This was the location of last spring's encampment, and the majority of the members of the battalion are in favor of going there this year.

Another question to consider was the financing of the encampment. In 1907 each cadet paid \$3. This did not cover the entire expense of the outing, however, and several citizens of Salt Lake donated enough money to make the camp a success. This plan will probably be adopted, and the Commercial club may be asked for the money needed.

LANDLORD IS CHARGED WITH MAKING GUN PLAY

A. H. Lund is charged with exhibiting a revolver in a rude and threatening manner in the presence of M. P. Miller and G. H. Dodd, March 18. It is alleged that a Mrs. Olson was moving from a house that belonged to Lund, and that he appeared upon the scene and claimed that the woman owed him certain rent. She denied the allegation and Lund then attempted to take a photograph, belonging to her, from Miller, who was engaged to do the moving. Miller held on to the music box and Lund is then said to have pulled his gun. However, Lund went away minus the photograph.

THEORY GENERALLY ACCEPTED AND SUCCESS IS UNIVERSAL

L. T. Cooper, whose theory that the human stomach is the cause of most ill health and who created a furore in Chicago, St. Louis and other western cities, is meeting with the same remarkable success with his medicine throughout the east. Cooper has convinced an immense number of people that his theory is sound and his medicine will do what he claims.

Perhaps the most interesting features of the discussion this young man is causing, are the statements made by responsible people who have taken his medicines and have become enthusiastic converts to his beliefs. Among statements of this character, the following, by Mr. August Wittmer, 1019 Rockwell Court, Chicago, is characteristic of the widespread faith in Cooper, which has grown up in a comparatively short time. Mr. Wittmer says: "I wouldn't take \$1000 and be in the condition I was three weeks ago. I was practically an invalid for four years and think I had about all of the diseases known. My stomach was weak, and at times I would have an

enormous appetite, and then again none at all. Pie and cake made me sick, and I almost always had a sickening feeling in my stomach. I was nervous, and for weeks at a time could not sleep, and then again could sleep eighteen hours at a stretch. Sleep, however, seemed to do me no good, and I would awake tired and more exhausted than when I went to bed.

"I was constipated, had pains in my back, and flutterings and pains in my heart. I was unable to work with any regularity, and took no interest in anything. I tried all kinds of medicines and doctors, but none benefited me. I had no energy and no ambition, and had about concluded to give up when the Cooper medicine was recommended. Thanks to it, my health seems completely restored and I feel like a new man."

Cooper medicines have created the greatest sensation of anything of the kind ever before introduced. We sell them, and will be glad to explain the nature of them to our callers. F. J. Hill Drug Co., 89 West Second South.

The Far Eastern situation has become such a complicated piece of world politics that it is the subject of discussion in all parts of the globe. The Orient is the stage where the great drama of the future will be acted, and the United States is cast for a prominent part. Every American should become informed on this great international issue. There are 16,000 young Americans on our great Pacific fleet, and neither they nor their relatives and friends know whether their long journey will prove to be "a fight or a frolic." The time is ripe for enlightenment. To meet the general desire for a better understanding of this question, The Tribune has arranged for a comprehensive series of articles on the subject by

FREDERIC J. HASKIN

who, accompanied by his assistant, Mr. Louis Brownlow, will travel 20,000 miles in visiting Japan, Hawaii, and points along the Pacific coast between Los Angeles and Vancouver. This series will begin next Sunday, April 5, and will continue daily for several weeks. This great feature will be fully as interesting as a continued story. Watch for it.

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

Sold by all druggists at \$1.00 per bottle. Book containing valuable information free. The Bradfield Regulator Co., Atlanta, Ga.

S.S.S. CURES CATARRH

Catarrh is not merely a disease of the mucous membranes and inner linings of the body as some of the symptoms would seem to indicate; it is a deep-seated blood disease, in which the entire circulation and the greater part of the system are involved. Like all other blood diseases, Catarrh comes from poisons and impurities accumulating in the circulation which irritate and inflame the tissues and mucous surfaces, and then the unpleasant symptoms of the disease are manifested. There is a ringing noise in the ears, a thin, watery discharge from the nostrils, filthy matter drops back into the throat, the breath has an offensive odor, and many other annoying and unpleasant symptoms are characteristic of the trouble. Sprays, washes, inhalations, etc., cannot reach the blood, and are therefore valuable only for the temporary relief they afford. To cure Catarrh the blood must be purified. Nothing equals S. S. S. for this purpose; it goes down into the circulation, removes the catarrhal matter, purifies the blood and makes a lasting cure. When S. S. S. has removed the cause, the blood being pure and healthy nourishes the membranes and tissues instead of irritating them with noxious matter, and the symptoms all pass away. Book on Catarrh and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
